

Software: Oracle

Query:

DELETE FROM Location WHERE locno = 'L108';

Output:

The screenshot displays the Oracle SQL Developer interface. The top toolbar includes icons for running queries, saving, and other database functions. The 'Worksheet' tab is active, showing a SQL script with two statements: a DELETE statement to remove the record with locno 'L108' from the 'Location' table, followed by a SELECT statement to retrieve all records from the 'Location' table. Below the script, the 'Query Result' tab is selected, showing the results of the SELECT statement. The status bar indicates 'All Rows Fetched: 8 in 0.003 seconds'. The results are presented in a table with three columns: LOCNO, FACNO, and LOCNAME.

	LOCNO	FACNO	LOCNAME
1	L100	F100	Locker room
2	L101	F100	Plaza
3	L102	F100	Vehicle gate
4	L103	F101	Locker room
5	L104	F100	Ticket Booth
6	L105	F101	Gate
7	L106	F100	Pedestrian gate
8	L107	F104	Gate
